

# Elapsed Time Two

## Exploration Questions

1. Complete a problem at level 3 difficulty with “guess” selected. Record the start time and the elapsed time and explain the steps that you took to find the answer. Show your work.
2. Find the ending time between 8:30am and 7:52pm by using the two methods of measuring ending time mentioned in the learner tab of the activity. Show your work. Did you prefer to add the hours and minutes one at a time or did you prefer to make the situation into an addition problem? Why?
3. What are the main differences between the questions at level 1 and the questions at level 3? What makes the level 3 questions more difficult?
